

Foreman Training Series

Productivity Improvement for Mechanical Projects (half-day)

Great project management, by both the foreman and project manager, is primarily responsible for creating excellent productivity on every project. Due to the endless number of variables, which negatively affect worker efficiency, excellent productivity is the project team's greatest challenge. Productivity also has the greatest positive or negative impact on project and company profitability. Excellent productivity requires proactive, diligent, and detailed planning by the project manager and foreman at each step of the project.

Managing Change at the Jobsite (half-day)

The contractor's primary risks in the construction process are: estimating, budgeting, managing, and controlling project labor costs. You will explore the jobsite supervisor's role in managing and controlling mechanical project labor costs. The jobsite supervisor's unique partnership with the mechanical project manager in timekeeping, coding, tracking, and forecasting project labor hours and costs will be stressed. **Note: Participant will receive City of Topeka Continuing Education Units (CEUs) for both sessions.**

WHEN:

Friday
April 7, 2017
Register: 7:30 a.m.
Class: 8 a.m. - 3:30 p.m.

WHERE:

Washburn Tech
5724 SW Huntoon St.
Topeka, Kansas
66604

WHO:

Journeyman & Foremen

Mechanical Contractors Association of Kansas

Friday, April 7, 2017

John Koontz has 30 years of wide-ranging mechanical industry experience that includes contracting, academics and consulting. He spent 15 years in employment of MCAA contractors in a variety of positions including senior project manager, project manager, project engineer and estimator.

He is a former tenured associate professor in Purdue University's Department of Building Construction Management. He also is the founder and former director of Purdue's Mechanical Construction Management Specialization Program and is the founder of the first-ever MCAA student chapter which was started at Purdue in 1993.

Since leaving Purdue in 1999 to join the MCAA full-time, Professor Koontz has spent more than 2,000 days traveling throughout America speaking, teaching, training, consulting and writing about all subjects related to the mechanical contracting industry.
