

NC3, Snap-on, Trane and Washburn Tech present

NC3 Boot Camp II

on the Washburn Tech campus in Topeka, Kansas

National leaders from industry and technical education talk about the math, science and reading skills needed by today's workforce. Lunch will be provided. Speakers include:

- Dr. Blake Flanders, **KBOR** Vice Pres. Workforce Dev.
- Roger Tadajewski, **NC3** Executive Director
- Keven Ward, **TRANE** Public Sector Consultant
- Jay Scott, **Kansas Dept. of Education**
- Dr. Pat Munzer, **Washburn** Dean of Applied Studies

The event also includes a tour of Washburn Tech and break-out sessions in the following programs: Climate and Energy Control, Heavy Diesel Construction Technology, Auto Service, Auto Collision, Machine Tool and Building Technology.

Today's technician is smart, tech-savvy and adaptable to any workplace. It is up to technical and secondary educators to prepare them for these high-pay, high-demand careers. Math and science teachers are critical to the process! Join the conversation at
