## Project Manager Training Series

### Change Order Management

Successfully managing change orders on a complex and constantly changing project is a seasoned project manager's greatest challenge and a new or inexperienced project manager's greatest nightmare. If not well managed by a proactive and knowledgeable project manager, change orders can cause unnecessary additional risk, destroy base contract labor productivity, ruin customer and contractor relationships, choke cash flow, reduce or eliminate profitability and create nearly irreversible negative jobsite moral.

### Profitably Managing Your Subcontractors

Subcontractors represent a significant portion of most mechanical contracts, and the performance of your subcontractors is a direct reflection of your own performance in the eyes of an owner, construction manager or general contractor. The project manager's effective management of subcontractors ensures a successful project that is profitable, completed on time and within budget. **Note: Participant will receive City of Topeka Continuing Education Units (CEUs).**

#### WHEN:

Friday  
July 14, 2017  
Register: 7:30 a.m.  
Class: 8 a.m. - 3 p.m.

#### WHERE:

Washburn Tech

John Koontz has 30 years of wide-ranging mechanical industry experience that includes contracting, academics and consulting. He spent 15 years in employment of MCAA contractors in a variety of positions including senior project manager, project manager, project engineer and estimator.

He is a former tenured associate professor in Purdue University's Department of Building Construction Management. He also is the founder and former director of Purdue's Mechanical Construction Management Specialization Program and is the founder of the first-ever MCAA student chapter which was started at Purdue in 1993.

Since leaving Purdue in 1999 to join the MCAA full-time, Professor Koontz has spent more than 2,000 days traveling throughout America speaking, teaching, training, consulting and writing about all subjects related to the mechanical contracting industry.
