14. Recognizes risk factors, delays, or disabilities that may indicate a need for special services.
15. Identifies community agencies providing assistance for children and families.
16. Exhibits knowledge of advocacy issues.

Guidelines for Success

Assessment Plan

Assessment is an integral part of the educational process at Washburn Tech and accurate feedback is an important tool in continuously improving the institution's technical programs. Students can expect to participate in assessment activities prior to entry into programs, within specific courses and following program completion for specific fields of study.

GRADING CRITERIA

Grades are earned using a point system. Grade percentage is determined by calculating number of points earned divided by the number of points available. Points are earned daily for attendance and participation as well as through assignments and exams.

Grading Scale

90-100%	A
80-89%	B
70-79%	C
60-69%	D
59%-Below	F

Attendance

If a student will be absent, he or she must call the instructor before class begins in order for the absence to be excused. If a student knows in advance of an absence, he or she may tell the instructor at that time. Any other absence is considered unexcused.

Excused lab time is made up by substituting in the lab for another student or observing at another child care facility. Unexcused absences result in a loss of daily points as well as points available for that day in the lab.

Disability

The Special Support Services (SSS) Office is responsible for assisting in arranging accommodations and for identifying resources at Washburn Institute of Technology for persons with disabilities. Qualified students with disabilities MUST register and provide documentation with the office to be eligible for services. New requests for accommodations should be submitted two months or more prior to the date services should begin; however, contact the SSS Office as soon as a need may arise. Depending on the accommodation request, four to eight week lead time may be needed for timely and effective provision of services. SSS coordinates and assist in arranging services it deems appropriate of eligible students on a case-by-case basis.

If you are a student with a disability that may substantially limit your ability to participate in this class and believe you will need accommodations, it is your responsibility to contact:

Special Support Services Coordinator

Phone: 785-228-6356
