

TURN YOUR PASSION FOR HELPING OTHERS INTO A CAREER

# Associate Degree Nursing Program

[HEALTH OCCUPATIONS]

**WASHBURNTECH**  
UNIVERSITY

Take your love of helping others to the next level by choosing a career as a nurse. As a Registered Nurse, you will provide direct care for the sick and injured or people with disabilities in hospitals, nursing homes or other medical settings. Often, you will be assisting other medical professionals. Join one of the fastest growing career fields.

### LEARNING AT WASHBURN TECH

Our ADN program is available as a full-time, daytime program with either August or January start dates. Students who successfully complete this 65-credit hour program will earn their Associate of Applied Science degree in Nursing and will then be eligible to take the NCLEX-RN licensing exam. Successful completion of the NCLEX-RN enables the graduate to practice as a Registered Nurse (RN). This program is approved by the Kansas State Board of Nursing. Attending full-day, you can complete the program in two semesters.

### JOB AND SALARY OUTLOOK

This career forecast is bright due to an aging population and increased demand for healthcare services. Kansas Department of Labor reports the average salary for an entry-level RN is \$29.30 an hour or \$60,939 annually. The average wage is \$36.53 an hour or \$75,977 annually.

### ENTRY REQUIREMENTS

Applicants for the ADN program must have completed a Kansas approved Practical Nursing program and have an active Kansas LPN License. You must take the **ATI TEAS Assessment**. Students must **earn a composite score of 55 or higher**. Students earning a 55 or higher for PN admission do not need to retake the TEAS. A list of prerequisite coursework is listed in the Admissions packet. Candidates must complete a paper application and submit transcripts.
